**General conditions: storage of technical documentation
(Non-Electrical Equipment of category 2)
according to the Article 13 1) b) ii) of the 2014/34/EU directive**

2. SUBJECT AND BACKGROUND

The present offer is established for storage of technical documentation (Non-Electrical Equipment of category 2) according to the Article 13 1) b) ii) of the 2014/34/EU directive.
The deposit file content is defined in the Annex VIII of Directive 2014/34/EU (see annex).

3. NATURE OF THE SERVICE PROVIDED

Our service will include:

- The storage of the technical file requested by the applicant is for ten years.
- The establishment of an acknowledgement of delivery of file deposit.

Ineris will not read neither examine this file.

You can find the deposit file contents - send to a notified body for an electrical equipment of category 2 which has to be placed in zones 1 or/and 21 – in Annex VIII of the Directive 2014/34/EU (see annex):

- marking
- general description of the equipment
- drawings
- components description (including certificates)
- instructions (according to Annex II clause 1.0.6 of Directive 2014/34/EU)
- risks analysis showing the conformity of the equipment to the essential requirements of the directive (examples given in the standard EN ISO 80079-36).

Two pieces of equipment of different designs, will be the subject of two different files, while several equipment of identical design but with different size represent the same range and is subject of only one file.

For any design change of the equipment, a new deposit file is required, an addition of the deposit does not exist.

4. IMPLEMENTATION CONDITIONS

4.1. Reception of your file

The file has to be sent only in French or English:

- In digital format: A single PDF file containing the entire technical file.

To avoid the misunderstanding, the word "ATEX" must not be used for the name of your file

One month after the receipt of the following documents: **form for order, official purchase, technical form, payment by bank transfer and the technical file in PDF format**, we will send you an acknowledgement of the deposit of your file as well as a settled invoice.

4.2. Storage of your file

INERIS will preserve the technical file for 10 years (taking to account the acknowledgement date). Beyond this period the file will be destroyed. If you wish to continue the storage of your file, you should let us know by letter three months before the previous destruction date.

**Directive 2014/34/EU Extract
ANNEX VIII**

MODULE A: INTERNAL PRODUCTION CONTROL

1. Internal production control is the conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 2, 3 and 4, and ensures and declares on his sole responsibility that the products concerned satisfy the requirements of this Directive that apply to them.

2. Technical documentation

The manufacturer shall establish the technical documentation. The documentation shall make it possible to assess the product's conformity to the relevant requirements, and shall include an adequate analysis and assessment of the risk(s).

The technical documentation shall specify the applicable requirements and cover, as far as relevant for the assessment, the design, manufacture and operation of the product. The technical documentation shall contain at least the following elements:

- (a) a general description of the product,
- (b) conceptual design and manufacturing drawings and schemes of components, sub-assemblies, circuits, etc.
- (c) descriptions and explanations necessary for the understanding of those drawings and schemes and the operation of the product,
- (d) a list of the harmonised standards applied in full or in part the references of which have been published in the *Official Journal of the European Union* and, where those harmonised standards have not been applied, descriptions of the solutions adopted to meet the essential health and safety requirements of this Directive, including a list of other relevant technical specifications applied. In the event of partly applied harmonised standards, the technical documentation shall specify the parts which have been applied,
- (e) results of design calculations made, examinations carried out, etc., and
- (f) test reports.

3. Manufacturing

The manufacturer shall take all measures necessary so that the manufacturing process and its monitoring ensure compliance of the manufactured products with the technical documentation referred to in point 2 and with the requirements of this Directive that apply to them.

4. CE marking, EU declaration of conformity and attestation of conformity

- 4.1.** The manufacturer shall affix the CE marking to each individual product other than a component that satisfies the applicable requirements of this Directive.
- 4.2.** The manufacturer shall draw up a written EU declaration of conformity for a product model other than a component and keep it together with the technical documentation at the disposal of the national authorities for 10 years after the product, other than a component, has been placed on the market. The EU declaration of conformity shall identify such product model for which it has been drawn up. A copy of the EU declaration of conformity shall accompany every product other than a component.
- 4.3.** The manufacturer shall draw up a written attestation of conformity for each component model and keep it together with the technical documentation at the disposal of the national authorities for 10 years after the component has been placed on the market. The attestation of conformity shall identify the component for which it has been drawn up. A copy of the attestation of conformity shall accompany every component.

5. Authorised representative

The manufacturer's obligations set out in point 4 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.
