About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: www.iec.ch/searchpub

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: www.iec.ch/online_news/justpub

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

**IECEX Scheme for Certification of Personnel Competencies
for Explosive Atmospheres –****Rules of Procedure**

FOREWORD

The IECEx Management Committee (ExMC) has prepared this publication.

All of the annexes to this publication are normative.

These requirements are not intended to change national regulations but offer a practical and workable option to Regulators especially where national regulations do not exist.

This publication is directly related to Publication IECEx 01 containing the Basic Rules of the IECEx Certification System.

This edition of IECEx 05 takes effect immediately upon publication.

The text of this publication is based on the following documents:

Document	Report on Voting
ExMC/515A/DV	ExMC/548/RV

Full information on the voting for the approval of this publication can be found in the report on voting indicated in the above table.

INTRODUCTION

IECEX Certification of Personnel Competencies Scheme

While certification of Ex equipment is covered by the IECEx Certified Equipment Scheme and the IECEx Service Facilities, as detailed in IECEx 02 and IECEx 03 respectively, the objective of the IECEx Certification of Personnel Competencies Scheme is to provide cross-industry competencies needed for work associated with equipment for hazardous areas. These competencies are intended for use by any industry sector or enterprise with regards to explosion-protection related to the relevant functional areas.

There are several documents that provide the basis for the IECEx Certification of Personnel Competencies Scheme:

IECEX 05, IECEx Scheme for Certification of Personnel Competencies for Explosive Atmospheres – Rules of Procedure

IECEX OD 501, Assessment Procedures for IECEx acceptance of Certification Bodies (ExCBs) for the purpose of issuing and maintaining IECEx Certificates of Personnel Competencies

IECEX OD 502, Application for an IECEx Certificate of Personnel Competencies, documentation and information requirements

IECEX OD 503, ExCB Procedures for issuing and maintaining IECEx Certificates of Personnel Competencies

IECEX OD 504, Specification for Units of Competency Assessment Outcomes

This certification scheme is intended only to ascertain the competency of personnel as it relates to working with equipment for use in or associated with explosive atmospheres.

Where is Ex equipment commonly found?

Flammable gases, vapours and mists, as well as combustible dusts create potentially explosive atmospheres.

Industries include but are not limited to:

- Automotive refuelling stations or petrol stations
- Oil refineries, rigs and processing plants located Onshore or Offshore
- Oil and gas tankers, drilling ships and FPSOs (Floating Production Storage Offloading vessels)
- Chemical processing plants
- Printing industries, paper and textiles
- Hospital operating theatres
- Aircraft refuelling and hangars
- Surface coating industries
- Underground coalmines
- Sewerage treatment plants
- Gas pipelines and distribution centres
- Grain handling and storage and processing (flour-milling industry)
- Woodworking areas
- Sugar refineries
- Light metal working, where metal dust and fine particles can appear

Competency application

The competencies are intended to be applied as it relates to the specific work function of an individual person and includes (but not limited to) management awareness, area classification, design of installations, selection, installation, inspection, maintenance and repair/overhaul. The scheme does not detail any training requirements and a Certificate is issued on the basis of an assessment undertaken by an ExCB. Evidence of qualification or trade credentials for similar work in non-hazardous areas will need to be presented and verified prior to being assessed for work in hazardous areas and this will include any regulatory requirements for certificates or licenses etc., within each country for which the person is making application for the Certification to be valid.

A Certificate of Personnel Competencies (CoPC) can only be issued when compliance with the Scheme requirements has been achieved and the person is competent according to the Units of Competencies in the scope of the application.

More information

Further information, including free downloads of the IECEx Rules of Procedure, is available from the IECEx website: www.iecex.com.

IECEX Scheme for Certification of Personnel Competencies for Explosive Atmospheres –

Rules of Procedure

1 Scope

This publication contains the Rules of Procedure of the Scheme of the IECEx System, hereinafter referred to as the "Rules", for the Certification of Personnel Competencies involved in activities such as but not limited to:

- apply basic principles related to managing, producing, processing or servicing functions in explosive atmospheres
- perform classification of hazardous areas
- install explosion-protected equipment and wiring systems
- maintain equipment in explosive atmospheres
- overhaul and repair explosion-protected equipment
- test electrical installations in or associated with explosive atmospheres
- perform visual and close inspection of electrical installations
- perform detailed inspection of electrical installations
- design electrical installations
- perform audit inspection of electrical installations

all for use in or associated with explosive atmospheres.

It is not intended that the IECEx Certification of Personnel Competencies Scheme be applied to personnel who are:

- involved in the design or manufacture of product where the output of their work is verified through test, assessment or equipment certification
- involved with testing and certification bodies where their competency is verified through the accreditation of a Test Laboratory or a Certifying Body.

This IECEx Certification of Personnel Competencies Scheme operates as a complimentary Scheme to the IECEx Schemes covering Certification of Equipment for use in explosive atmospheres (IECEX 02) and the Certification of Service Facilities (IECEX 03).

These Rules relate to and must be read in conjunction with the Basic Rules of the IECEx System, as given in IECEx 01.

2 Normative references

The following publications contain provisions, which, through reference in this text, constitute provisions of these Rules. At the time of publication, the editions indicated were valid. The Ex Management Committee shall decide the timetable for the introduction of revised editions of the publications.

IECEX 01:2008, *IECEX System – Basic Rules*

IECEX 02:2006, *Equipment Certification Program covering equipment for use in explosive atmospheres – Rules of Procedure*

ISO/IEC Guide 2:2004, *Standardization and related activities – General vocabulary*

ISO/IEC 17000:2004, *Conformity Assessment – Vocabulary and general principles*

ISO/IEC 17024:2003, *Conformity Assessment – General requirements for bodies operating certification of persons*

IEC 60079 Series, *Explosive atmospheres*

3 Definitions

ISO/IEC Guide 2 gives the basic definitions.

For the purpose of the IECEx Certification of Personnel Competencies Scheme, the definitions contained in ISO/IEC 17024, IECEx 02 and those below apply:

3.1

IECEx Certification of Personnel Competencies Scheme

scheme of the IECEx Certification System for the certification of personnel competencies for persons engaged in work and services related to explosive atmospheres

3.2

IECEx Certificate of Personnel Competencies (CoPC)

document issued under these Rules indicating that adequate confidence is provided that a duly identified person has been found to operate procedures that provide confidence that the work undertaken complies with IECEx requirements and is under the surveillance of an IECEx Certification Body (ExCB)

NOTE IECEx CoPCs are issued via the IECEx internet based “On-Line Certificate” system. Refer to IECEx OD 011-1 for details.

3.3

IECEx Personnel Competency Assessment Report (PCAR)

document that presents the results of an assessment of a person’s competencies to the requirements of the IECEx Certification of Personnel Competencies Scheme

3.4

applicant

person who applies to an Ex Certification Body for an IECEx Certificate of Personnel Competencies

3.5

competency

acquired specific knowledge and skills and the application of that knowledge and skill to the standards of performance required in the workplace

NOTE The concept of competency focuses on what is expected of a person in the workplace rather than on the learning process, and embodies the ability to transfer and apply skills and knowledge to new situations and environments.

3.6

Ex Competent Person

person who can demonstrate a combination of knowledge and skills to effectively, efficiently and safely carry out activities in hazardous areas, covered by IECEx requirements

NOTE Competencies are specified by activity (e.g. classification, selection, installation, maintenance, testing and inspection, etc.) and may be limited by types of protection, product types, groups etc as detailed in IECEx OD 502.

4 Governing of the IECEx System

The IECEx System is governed by the Ex Management Committee (ExMC). The responsibilities of the ExMC, in this respect, are defined in the Basic Rules of the IECEx System, as given in IECEx 01.

This publication IECEx 05 sets out the general Rules of Procedure of the IECEx Certification of Personnel Competencies Scheme. These general Rules are supplemented by the Scheme's Operational Documents (ODs).

5 Obtaining IECEx Certification of Personnel Competencies

The IECEx Certification of Personnel Competencies Scheme provides the means for persons to obtain an IECEx Certificate that is intended to provide the international Ex community with confidence that such persons undertake work or provide services in accordance with the technical and quality system requirements of the IECEx Certification of Personnel Competencies Scheme. The aim of the IECEx Certification of Personnel Competencies Scheme is that IECEx Certified Personnel:

- establish and implement system procedures
- maintain competencies in the Ex field as administered by the ExCB
- ensure necessary test and measuring equipment are adequate and under calibration control.

The IECEx Operational Documents OD 501, OD 502, OD 503, OD 504 and relevant requirements of IEC 60079 series of Standards, together with these Rules form the basis of the IECEx Certification of Personnel Competencies Scheme requirements.

An IECEx CoPC may be issued for a specific area of operation, for example to cover "Area Classification to IEC 60079-10 only".

Ex Competent Persons that have attained and maintain IECEx Certification for the services they provide shall affix the IECEx CoPC reference adjacent to the signature, to reports and stationery providing that there is no misrepresentation of the scope of certification.

6 Principles of the IECEx Certification of Personnel Competencies Scheme

6.1 IECEx Certificate of Personnel Competency (CoPC)

The IECEx Certification of Personnel Competencies Scheme provides the means for an individual working within hazardous areas to obtain a Certificate of Personnel Competency (CoPC) that is intended to be accepted in all participating countries as equivalent to their national certification. An IECEx CoPC may also be accepted in other non-participating countries. An IECEx CoPC may be issued by any ExCB accepted into the Scheme. The Certificate will attest that the individual person conforms to the relevant criteria and that he meets the requirements of this Scheme and is under the surveillance of an ExCB.

6.2 IECEx Certificate issuing countries

In order for a country to participate in the IECEx Certification of Personnel Competencies Scheme the country must first be a member of the IECEx System and comply with the requirements for IECEx Membership, as detailed in IECEx 01. Countries that are existing members of the IECEx System shall be considered members of the IECEx Certification of Personnel Competencies Scheme.

6.3 Method of application

An ExCB approved by the ExMC, in accordance with these Rules and associated IECEx Operational Documents, may issue IECEx CoPC. Applications for acceptance for the purpose of issuing IECEx CoPC can be accepted from Bodies that reside in an IECEx Participating Member Country. An application for a country to participate in the IECEx System is made by the candidate Member Body of the IECEx System for that country (see IECEx 01). The application is made to the Secretary of the ExMC.

6.4 Acceptance

Certification bodies are accepted into the IECEx Certification of Personnel Competencies Scheme following satisfactory assessment of their competence by assessors appointed by the ExMC as providing adequate confidence to regulatory authority, user, manufacturer and certification body interests. Competence is judged by reference to ISO/IEC 17024 and IECEx System requirements.

6.5 Permissions

Only ExCBs that have been accepted for the purpose of issuing IECEx CoPC and reside in an IECEx Participating Country are permitted to issue IECEx CoPCs.

6.6 Confidentiality

All those participating in the IECEx System shall respect the confidentiality of any information that they obtain and take all reasonable steps to bind their staff and those working under contract to preserve that confidentiality. The effectiveness of such steps taken shall be evaluated as part of the IECEx assessment of the ExCB.

7 IECEx instruments

7.1 IECEx Certificate of Personnel Competencies [CoPC]

7.1.1 Issue

An ExCB, on the basis of a satisfactory IECEx Personnel Competency Assessment Report (PCAR), issues an IECEx Certificate of Personnel Competencies (CoPC) certifying that the Ex Competent Person identified on the Certificate has been independently assessed and verified as competent in the specific competencies listed on the Certificate and conforms in all relevant respects with the IECEx requirements concerning IECEx Certification of Personnel Competencies Scheme procedures.

7.1.2 Format

The ExMC shall decide on the format, layout and content of IECEx Certificates of Personnel Competencies.

7.1.3 Contents

The IECEx CoPC shall contain at least the following information:

- date of issue
- date of expiry
- clear description of the Ex Competent Person including photographic evidence
- the name of the Ex Competent Person
- the number and title of the Unit of Competencies including any limitations which have been independently assessed and verified

- the reference number of the original PCAR that enabled IECEx CoPC to be issued
- indication of changes to Certification and amendment issue
- name of the issuing ExCB.

7.2 IECEx Personnel Competency Assessment Report (PCAR)

7.2.1 Content

A PCAR is prepared and issued by an ExCB recording the independent assessment and verification of an Ex Competent Person's competencies for compliance with the IECEx Certification of Personnel Competencies Scheme requirements.

7.2.2 Format

The ExMC shall prepare a document detailing competency requirements for the Scheme and the format, layout and content of PCARs.

7.2.3 Restrictions

The PCAR is a document used in the preparation of the IECEx CoPC and basis for on-going surveillance of the Ex Competent Person. The PCAR is issued to the applicant on the basis of being a confidential document and shall not be used in any form of advertising or sales promotion in a way that the information may be misrepresented.

8 Certification procedure

8.1 Applicant

An individual person may make an application for an IECEx CoPC to any ExCB, which has been accepted for this purpose by ExMC. At the time of acceptance of the application there shall be a declaration that an application has not been accepted by another ExCB.

8.2 Application documentation

The documentation shall accurately identify the specific scope of competencies for certification as detailed in IECEx OD 504, and shall include the name, address and colour photograph of the applicant.

8.3 Evaluation of applicant documentation

The ExCB shall conduct an evaluation of the applicant documentation to verify that the application for IECEx CoPC is in conformity with IECEx requirements and notify the applicant of the result.

8.4 Assessment of Ex personnel competencies

The ExCB shall assess the competencies for compliance with specified requirements as detailed in the relevant IECEx Operational Documents. The ExCB shall issue an IECEx PCAR only when full conformity with IECEx Certification of Personnel Competencies Scheme requirements has been established or issued as a PCAR (failed) where full compliance has not been achieved.

8.5 Certificate issue

Upon satisfactory completion of the work, the ExCB shall review the PCAR to ensure it covers the Ex Competent Person's details and the competencies which have been independently assessed and verified. If the review is satisfactory the ExCB shall issue the PCAR together with an IECEx CoPC to the applicant, with a copy of each being retained by the ExCB. The Ex

Competent Person and the ExCB shall each retain a set of the applicant documentation referred to in the PCAR. The ExCB issues the IECEX CoPC via the IECEX internet “On-Line Certificate” system, including the registering of the PCAR.

The IECEX CoPC shall remain valid only while a valid PCAR exists.

8.6 Surveillance and re-certification

The Ex Competent Person shall sign an agreement to enable the ExCB to carry out, or arrange for another body to carry out on its behalf, periodic surveillance of the Ex Competent Person’s continuity of practice. The frequency of such surveillance, inspection, assessment and testing shall be determined by the ExCB in accordance with the IECEX Certification of Personnel Competencies Scheme requirements and the Competencies being assessed.

As a minimum an ExCB shall receive evidence from an applicant as to his continuing application of skills in his area of competency every 18 months. This may lead to a review of the Certificate.

Re-certification shall result in the PCAR being withdrawn or re-validated, and the IECEX CoPC adjusted accordingly.

After three (3) years from the original issue of the PCAR a reassessment of the competencies included in the PCAR and Certificate shall be undertaken for the purpose of re-certification.

NOTE The requirements for surveillance and re-certification is subject to further consideration by ExMC.

8.7 Changes

If the Ex Competent Person wishes to make any changes that may alter the scope of the Competencies listed on the Certificate, he shall apply to the ExCB which granted the IECEX CoPC. The Ex Competent Person is required to describe the changes and the measures adopted to ensure continuing conformity with IECEX requirements. The ExCB shall arrange for such work as is necessary to be carried out to verify that the Ex Competent Person incorporating the change will still conform to the Scheme requirements. The ExCB shall issue a new Certificate authorizing the change. The ExMC shall specify the layout and content of the addendum. An ExCB may determine that a major change(s) requires a new Certificate to be issued.

8.8 Ensuring conformity

The Ex Competent Person has the responsibility to ensure that all work or services provided is in accordance with IECEX requirements for this Scheme.

8.9 Documentation retained

In placing an application with an ExCB, the applicant authorises the ExCB to keep, for future reference, photographs and technical documentation of the Assessment of Competencies. Such reference material shall be confidential.

8.10 Surcharges

An Ex Competent Person who is not in an IECEX Participating Country and an applicant acting on behalf of an operating organization in such a country shall pay a contribution to the costs of the IECEX System in the form of a surcharge for each application, the amount to be decided by the ExMC. The surcharge is to be collected by the ExCB handling the application, and remitted to the IECEX account.

8.11 Suspension or withdrawal

An IECEX CoPC may be suspended or cancelled by the issuing ExCB for the following:

- non payment of outstanding fees
- failure to comply with the surveillance requirements
- the Certificate or PCAR has been issued in error
- the holder requests cancellation
- it is used in a misleading way or
- the Ex Competent Person no longer complies with the IECEX requirements.

The ExCB shall give due notice to the Ex Competent Person of such suspension or cancellation and shall give the reason(s).

When an IECEX CoPC is suspended or when it has been cancelled, the Ex Competent Person shall no longer describe themselves as "IECEX certified", nor shall he use the IECEX Certificate. Work or services provided prior to the cancellation of the Certificate is not affected, except that the Ex Competent Person is responsible for determining the necessary action, if any, for previous work or services provided as a result of the suspension or cancellation.

8.12 Compliance with Rules

The applicant shall follow the Rules of Procedure of the ExCB and shall confirm readiness to comply with all the relevant provisions regarding, for example, surveillance and payment of fees.

8.13 Appeals

Should a Ex Competent Person or applicant be refused the issuing of an IECEX PCAR or IECEX CoPC or be the subject of suspension or cancellation of an IECEX CoPC and disagrees with this decision the person may lodge an appeal to the IECEX Board of Appeal according to IECEX 01.

9 Acceptance of certification bodies (new ExCBs)

9.1 Conditions for acceptance

A certification body shall be accepted as an ExCB by the ExMC and given the right to issue IECEX CoPCs and PCARs, under the following conditions:

- the certification body shall be located in a IECEX Participating Country
- the certification body shall be recognized at national level for operating Ex Certification or Approval Systems
- the competence of the certification body to comply with these Rules shall be demonstrated by assessment. The general competence, efficiency, experience, familiarity with the relevant standards and the types of protection and competence to carry out assessments of the Competencies included in those standards, as well as compliance with ISO/IEC 17024 and this IECEX Scheme, shall be assessed.

9.2 Application

The candidate certification body shall make an application for the acceptance of a certification body for the issuing of IECEX CoPC as detailed in Annex B.

This application shall be endorsed and submitted by the national Member Body of the IECEx System, in accordance with the requirements of IECEx 01, to the Secretary of the ExMC and shall be accompanied by a declaration as detailed in Annex A.

9.3 Assessment

The candidate certification body shall be assessed according to the IECEx Assessment procedures to determine that the conditions according to 9.1 are fulfilled.

Assessors appointed by ExMC shall carry out the assessment. The candidate shall be given the names and current appointments of the assessors proposed. The team of IECEx Assessors proposed will have a working knowledge of assessment of personnel competencies, an understanding of the assessment techniques used for assessment of personal competency and specific hazardous area requirements. Candidates may object "for cause" (reasons to be stated) to the appointment of the assessors.

The candidate to be assessed shall express its willingness to pay the professional fees of the assessors. The amount will be decided by the ExMC, and will include reasonable travelling and living expenses arising from the assessment. An estimate of these expenses shall be provided to the candidate in advance and agreed by the candidate.

IECEX Assessment Teams shall report to the Secretary of the ExMC who shall manage all assessments, including the appointment of assessors, to ensure assessments are carried out in a timely manner and in accordance with the requirements of the Scheme.

9.4 Resolution of differences

During the assessment, the assessors shall prepare a draft report that shall be discussed with the management of the candidate certification body. Efforts should be made to resolve any differences of opinion between the assessors and the candidate during this discussion.

9.5 Report to ExMC

The assessors shall submit to the ExMC, with a copy to the representatives of the candidate certification body, a confidential report containing their findings and recommendations, taking into account the declaration submitted together with the application. The candidate may attend an ExMC meeting or submit written comments in order to respond to enquiries regarding its application.

9.6 Acceptance

The ExMC shall decide upon the acceptance of the candidate certification body at a meeting or by correspondence. In the latter case, the decision shall be reported to the next meeting of the ExMC and recorded in the minutes.

9.7 Notification

If the decision of the ExMC is positive, the Secretary of the ExMC shall inform the candidate certification body in writing.

If the decision of the ExMC is negative, the Chairman of the ExMC may, depending on the findings, suggest to the candidate certification body

- to withdraw the application or
- to accept a new assessment.

9.8 Changes

Each ExCB shall inform the Secretary of the ExMC about changes in the information given according to Annex A.

9.9 Change of scope

When an ExCB already participating in the IECEx Certification of Personnel Competencies Scheme wishes to change its scope of acceptance, an application shall be made to the Secretary of the ExMC. The members of the last Assessment Team who assessed the ExCB, should give their comments on the application to the ExMC. The ExMC shall decide whether the change can be accepted on the basis of the information made available or whether a full or limited assessment will be needed.

The matter shall either be submitted to a meeting of the ExMC for decision or handled according to 9.10.

9.10 Reporting of decisions

The ExMC may delegate the decisions according to 9.9 to the Chairman and Officers of the ExMC. Such a decision shall be reported to the next meeting of the ExMC and recorded in the minutes.

9.11 Re-assessment

By means of re-assessment to the extent and frequency deemed necessary, the ExMC shall verify whether ExCBs are still fulfilling the conditions of 9.1.

9.12 Withdrawal

An ExCB wishing to withdraw from the IECEx Certification of Personnel Competencies Scheme shall notify the Secretary of the ExMC via the Member Body of the IECEx System. This notification to be at least one year in advance and shall indicate the reason for the withdrawal and the date from which the withdrawal will become effective.

9.13 Suspension

The acceptance of an ExCB may be suspended or withdrawn by the ExMC if the ExCB no longer fulfils the conditions of 9.1 or, if in the opinion of the ExMC, the ExCB hampers the aim, operation or development of the IECEx Certification of Personnel Competencies Scheme, fails to take action regarding misuse of IECEx CoPCs, or violates these Rules. Before such a decision is made, the ExCB shall be given the opportunity to take corrective action over a period of six months and state its own opinion on the matter.

A decision to suspend or withdraw the acceptance of an ExCB shall require agreement at a meeting of the ExMC by a majority of at least four fifths of the total number of members. Members not attending that meeting shall have the right to cast their vote in writing by registered mail to the Secretary of the ExMC prior to the meeting.

Where suspension or withdrawal has been advised, the ExCB in question shall not be allowed to claim any relationship with the IECEx Certification of Personnel Competencies Scheme.

10 IECEx Publications

10.1 Types of publications

The publications detailed in IECEx 02 shall be expanded to accommodate the relevant information regarding CoPC.

In addition, the ExMC through its Secretariat may issue Operational Documents to ensure the common application of these Rules of Procedure by all ExCBs.

10.2 Information to be available

The following information shall be made readily available to the public:

- a current list of ExCBs participating in the IECEx Certification of Personnel Competencies Scheme
- IECEx CoPCs by Certificate number, scope and validity period. Other than the name and photograph, no personal details are to be included
- handbook providing guidance of the Certification of Personnel Competencies Scheme.

This and other relevant information may be made available on the IECEx website: www.iecex.com.

10.3 IECEx Bulletin

The Bulletin detailed in IECEx 02 shall be amended to accommodate the relevant information regarding the IECEx Certification of Personnel Competencies Scheme.

10.4 Source of information

The information published in the IECEx Publications is based on information given by the Member Bodies of the IECEx System, ExCBs and ExTLs. Neither the IEC nor the Secretary of the ExMC is therefore liable for the accuracy of that information. Publication of commercial information is not permitted.

11 Complaints

If there are complaints concerning the actions of an ExCB that the ExMC cannot resolve, the ExMC or the complainant shall have the right to request the CAB to take appropriate action.

Annex A

(normative)

Declaration by a certification body applying to become an Ex Certification Body for the IECEX Certification of Personnel Competencies Scheme

The declaration by a certification body applying to become an Ex Certification Body (ExCB) under the IECEX Certification of Personnel Competencies Scheme shall include the following information:

- a description of the body which gives, in addition to an organization chart, information about the legal status of the body, the address(es) at which it carries out its operations
- the means by which the body will demonstrate compliance with ISO/IEC 17024 or other relevant ISO/IEC personnel guidelines
- the responsibilities at national level concerning certification, and the schemes operated
- the arrangements for appeal, the documents available for providing supporting information, for example with regard to existing accreditation
- details of Senior Management and Staff, with their qualifications and experience, responsible for operating the IECEX Certification of Personnel Competencies Scheme
- a list of the type of Ex Personnel Competencies according to which the body wishes to issue IECEX Certificates of Personnel Competencies (CoPCs)
- a statement that the ExCB will abide by all the relevant Rules of the IECEX System
- experience already gained in the field of Personnel Competencies (e.g. National certification).

Annex B (normative)

Application Form to become an Ex Certification Body in the IECEx Certification of Personnel Competencies Scheme

ExMC/.../Q IECEx Application to become an Ex Certification Body in the IECEx Certification of Personnel Competencies Scheme.

This form is to be completed by the IECEx Member Body

Date:

Reference:

For the attention of the Secretary of the IECEx Management Committee.

Application for a certification body to become an Ex Certification Body in the IECEx for Certification of Personnel Competencies Scheme.

The IECEx Member Body of (name of country) makes the following application in accordance with 9.1, 9.2 and Annex A of Publication IECEx 05
